Preface.

ALTHOUGH there are many complete and elaborate Atlases of the World, they are all more or less in such a large and unwieldy form, that reference to them, whilst reading a newspaper or book, usually involves a considerable amount of trouble.

In the present work, the special aim has been to obviate this inconvenience to the public by providing an Atlas which, for all general purposes, is practically quite complete and perfectly reliable, while, at the same time, in such a convenient and handy form that it may be kept on a writing-table or mantel-shelf for ready consultation.

The collection of maps, which is extensive and varied, will be found to present a trustworthy representation of the physical and political geography of all the countries of the world. British Colonies and Possessions have been treated in exceptional detail, and several original maps have been inserted to illustrate the most prominent features in Physical and Commercial Geography.

Accuracy, combined with clearness and legibility, have been the chief objects kept in view in the preparation of the maps; the latest authorities have been consulted, and all information has been carefully brought up to date.

The general utility of the Atlas has been increased by the addition of the most recent geographical statistics of the various States of the World, together with an Index of about fifteen thousand names.

1896.

The Fifth Edition of the Handy Reference Atlas may be introduced to the public as practically a new work. It has been remodelled and thoroughly revised, about eighty new maps have been added, and the text has been re-written and extended.

1904.

The plates have been carefully revised to date, and the statistics corrected according to the most recent Census returns.

The *Army* on a peace footing consists of 587,286 officers and men ; but taking into account the reserves, France has a war-force of about $2\frac{1}{2}$ millions of men ; and, including the various classes of able-bodied men whose services have been dispensed with, the total number amounts to 4,350,000. Military service is compulsory.

The effective *War Navy* of France consists of 414 vessels of all kinds, and 59,875 officers and men, including naval engineers, constructors, surgeons, &c. The submarine has been largely adopted by the French navy.

The French mercantile navy consists of 14,393 sailing ships of 564,447 tons, with crews 71,375, and 1299 steamers of 546,541 tons, with crews 14,423 ; in all, 15,692 vessels of 1,110,988 tons.

The *Chief Products* are silks, dress-stuffs, leather goods, jewellery, wines and spirits, sugar, cereals, perfumes, chemicals, &c.

The imports from French colonies and dependencies (inclusive of Algeria and Tunis) into Great Britain in 1900 amounted to £1,601,301 ; in 1901 to £1,536,162 ; the exports of British produce and manufactures from Great Britain to these colonies amounted in 1900 to £1,839,490 ; in 1901 to £1,494,587.

There is little French emigration to the French colonies. In 1901 the total number to whom free passages were given was 629.

The Bank of France has the monopoly of issuing bank-notes.
